Dear Krish

I am very pleased with the project you have done, and especially your commitment to providing a quality solution when it meant going the extra mile to do so.

I have worked with Jsoft Solution on Java project. Our projects are always relatively complex, involving java applications with offline capabilities and stringent synchronization requirements. We have also worked with other suppliers, with mixed results.

I can say in term of support they provide a great level of customer services. The service was prompt info was up-front and their respond time is efficient as they respond on time.

I'm looking forward too many future opportunities to work with these guys.

Sincerely,
