Malaysia.

Dear Krish

I am very pleased with the project you have done, and especially your commitment to providing a quality solution when it meant going the extra mile to do so.

I have worked with Jsoft Solution on Java project. Our projects are always relatively complex, involving java applications with offline capabilities and stringent synchronization requirements. We have also worked with other suppliers, with mixed results.

I can say with confidence that Jsoft Solution is the best IT company we have worked with. The programmers working on our projects have all been competent and experienced; but they have also been enthusiastic, dedicated, intelligent and enterprising. Communications have been of very high quality, it is clear that the company understand our need and works hard to deliver.

I'm looking forward too many future opportunities to work with these guys.

Sincerely,

IMADI OSMAN
IT Executive
